

Summer Math Assignment For Incoming Grade 8 Algebra 1

This assignment is intended to review the material from Grade 7, so you “hit the ground running” at the beginning of Grade 8. The material on this summer assignment will be reviewed during the first week of school. An assessment will follow to ensure that students have the skills necessary to be successful in the course.

Directions:

Log on to Khan Academy (<http://khanacademy.org>). Log on through your school google account. It should be the same code from Grade 7. Once logged in, you will see “Get Ready for Algebra 1” Mastery Challenge to complete. I recommend you **take the COURSE CHALLENGE to show what you already know and what you need to practice.**

- **Pace yourself (do not wait until the last minute). I recommend doing at least 1 hour per week. Do not rush through the assignment. You will be held responsible for knowing the concepts on this summer assignment.**

**If you have any questions, please email Mrs. Finan:
lfinan@stlukesri.org**
