

No one plans to spill milk on their iPad or drop it face down in the classroom! They're called accidents for a reason...they happen. They're unintentional. What is planned, is the peace of mind our parents have, knowing their child's iPad is protected by GoCare.

We take the worry out of those moments by providing an EZ Claims process and all US-based customer service team to quickly process the claim and get their device on the road to repair.

Solutions, not stress.

*That's the GoCare Peace of Mind promise.*

## WHAT IS COVERED

### Accidental Damage from Handling

Damage from drops, like cracks, dings, housing damage, and shattered screens.

Liquid damage from spills to full submersion

### Mechanical Breakdown caused by

Mechanical and electrical failures

Defective buttons or connectivity ports

Defects in material or workmanship

## HOW IT WORKS

When accidental damage or mechanical failure occurs, a **Claim** will be filed online. The claim will be reviewed by a Claims specialist in 4-6 business hours. Once approved, packing and shipping instructions will be emailed along with a prepaid shipping label. A complete, detailed claim form is imperative to the prompt processing of any claims. We want to resolve issues quickly, so we have made the claims process a breeze.

Liquid damage claims must be filed within 7 calendar days of the incident. All other Claims must be filed within 30 days of the incident. Sooner is always better!

If we must replace a device, we take ownership of the original device and provide a replacement or settlement based on our agreement. The remaining coverage transfers to the new device.
